

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. REGISTRY DEPARTMENT

OF THE

CITY OF BOSTON

RECORDS RELATING TO BIRTHS, MARRIAGES AND DEATHS OF DORCHESTER

(Formerly called Record Commissioners' Reports)

This volume, which is the thirty-sixth report in the series of Boston Records, contains the Births, Marriages and Deaths of the Town of Dorchester from 1826 to 1849, inclusive, and additional deaths, copied from epitaphs of the First Burying Ground in Dorchester, which do not appear in the Dorchester Records.

EDWARD W. MCGLENEN,

City Registrar.

THE following records of Births, Marriages and Deaths, include all entries found in the books of record of the Town of Dorchester from 1826 to 1849, inclusive, and all records previous to 1826 not found in volume 21 of the Record Commissioners' Reports.

Surnames are classified under the most common spelling, the other combinations following, but in the marriages the spelling as given may be found by looking up the other name.

In the records of births in several cases probable duplicates are found, the date differing a year. In such cases both entries are given, the latest entry marked "prob. dup."

An asterisk before a marriage indicates that the spelling compares exactly with the intention. Where a difference appears, it is noted; where no asterisk appears, or difference in spelling is noted, no intention was found.

Instead of printing the name of the minister after each marriage a number is substituted, which will be found against the name in the list of ministers. In many cases the name of the minister is not given, especially on returns from other towns.

In the records of deaths at the beginning of 1841 the following note appears: "Buried the day set down to each person," but in some cases two dates are given, presumably date of death and burial, and in such cases both dates are given. In 1844 the word "died" appears before the date, which would indicate that the date of death was recorded.

Following the regular lists of deaths, a supplement has been added which includes all deaths printed in the Annual Report of the Cemetery Department, 1904-05, copied from gravestones and tombs of the North District Burial Ground and which do not appear in our records.
